From Spring Street to Spring Station:

We are excited to announce our relocation from 805 Spring Street to **1207 Chestnut Street** (kitty-corner from the new Arts Center). Over the past couple years we've outgrown our home on Spring St. and knew that we'd need to find a solution that would allow us more space to continue to serve our growing patient population.

We've always loved the cozy feeling of our Spring St. location and worked tirelessly on the new build to create an environment that doesn't feel like walking into a medical complex, is comfortable and calming while still staying true to our roots highlighting Bastrop's distinct history.

Modeled after Bastrop's old train station that sat across Chestnut St. from our new building, we feel that we've accomplished our goal in creating a unique environment that will allow us to continue to provide the highest standards of dental care in surroundings that you'll look forward to coming to and feel right at home and at ease.

We anticipate we'll be ready to see patients at our new location starting **Monday, June 26th, 2017**. We plan on holding an open house, on a date and time still to be determined, near the end of the summer. We'll communicate the details as soon as they are available. We're excited for this new chapter that will allow us to continue our growth while serving our patients and community. We're excited to see you in our new building.

Regards,

Brian Romney, DMD
