Due to continued concern and elevated spread of COVID-19 in our local areas and in accordance with Governor Abbott's executive order on Sunday 3/22/20, effective immediately our office will be limited to treating emergency patients only through April 21st 2020. That date is subject to change according to state regulations as the situation continues to evolve.

We will still be available to manage patients with pain, infection, swelling, tooth fractures and or patients with underlying health concerns where delaying treatment could negatively affect their overall systemic health.

We will have a staff member here for most or our regularly scheduled office hours to answer calls and help manage any emergent issues that arise either palliatively or scheduling an appointment to see us on an on-call basis. Please do not hesitate to call the office. If it's outside normal business hours, or we are otherwise unavailable, please leave a message and we will get back with you as soon as we can.

We remain committed to our patients and community as we navigate this difficult situation. We are all in this together and we are here to help in any way that we can.

Brian Romney DMD
